

Cordstrap Edge Protectors

Cordstrap cargo edge protection products protect shipped goods and are an integral part of bundling and palletizing cargo.

The right edge protection product depends on variables such as the application and type of polyester strap or lash used.

Your local Cordstrap Cargo Securing Specialist will be happy to advise you on the correct edge protection product for your needs.

Benefits of Cordstrap Edge Protection:

- Protects both cargo and strap from damage to ensure optimal security
- Fast and easy to apply
- Cost effective
- Available in a wide variety of types, sizes and material including cardboard and plastic
